

NOVEMBER – DECEMBER 2019 FACT NEWS

The end of a successful year and a busy year ahead. We currently are three short of 100 registrations – need 100 for proper representation at our LMSC meetings so encourage your fellow swimmers to sign up!!

I have tried to spread the word for so many of the teams around the LMSC that we would love to include them. It's a problem passing on the information so please talk to those people that come to our swim meets with no one to swim with on a relay and few team members participating with them. This Florida Aquatic Combined Team was created to increase participation and comradery. There are 74 registered clubs in our LMSC. If you have been to any swim meets lately just look at the number of participants that are there with one or two other Club members – many of them have stated on their entry blank that they would love to be on a relay. Haven't allowed relays yet with two or three members!!!! Encourage these people to look at our web site or the Florida floridalmsc.org web site for an explanation of our Club. It's really simple and it's definitely a way to grow participation and enjoyment.

There are a number of meets coming up for the 50th anniversary of USMS and this is also the year to qualify for National Senior Games in 2021. The Valentine Meet at the Long Center is February 8-9; the St Pete 50th Anniversary Bob Beach meet is March 21-22; the Spring Nationals are in San Antonio TX April 23-26; the YMCA Nationals are in Orlando May 7 – 10th and we are also going to the Pan American Games in Medellin, Columbia in June – 18th through 25th. Join us for good swimming and fun. You can get in touch with me at jcampb10@tampabay.rr.com for details and questions.

We had fantastic representation at the State Senior Games in Coral Springs in December – walked off with all the laurels and hope that next year we'll

have at least that many to qualify for the National Senior Games in Fort Lauderdale.
