

## **JULY 2022 FACT NEWS**

I have just completed our NEWS article for the quarterly LMSC Newsletter and sent it off to Sheila. While we were in the throws of COVID our FACT team suffered dramatically financially. USMS has dropped their collection of our annual small fee of \$10/registration a year, and left us struggling to support our website.

Our great web volunteer, Janet Shellenberger, has been fabulous over the past several years and we want to thank her ever so much. Our star LMSC webmaster, Meegan Wilson, has worked out a one page website on the [floridalmcsc.org](https://floridalmcsc.org) for our use. The Florida Board of Directors has offered this service to other clubs who need it too. This is for our notices and communication within FACT and will be a great asset. Our new FACT website is located here: <https://floridalmcsc.org/fact-news/>

The cost of registering our FACT Club and workout groups is not a current problem. We have enough left of our funds to register FACT for 2023 and probably for the relays at the Rowdy Gaines meet in October. The current cost to register a Club or Workout Group is \$60. The workout groups pay their own registration fees. We will ask for donations in the future to cover the cost to register FACT.

Marianne Bradley has acted as Treasurer for the Club for several years and wishes to resign. We thank her for volunteering for this highly demanding job over the years. I will take on the responsibility of collecting donations for the yearly Registration and ask for the relay members to pay whatever the meet requires. Other than the Nationals in Sarasota next year this shouldn't be a big job. If there is anyone that could help me, I would appreciate the assistance when needed.

For current FACT News please refer to the August LMSC Newsletter.
