

Florida LMSC Annual Meeting October 2026

Newsletter Editor and Webmaster Report

Meegan Wilson

Three newsletters; [February](#), [May](#), and [August](#), have been published so far this year. The fourth newsletter will be published in November. In the [Newsletter section](#) of the [Florida website](#), you will find submission deadline dates and archived Florida newsletters. A big thank you to those clubs and individuals who have submitted articles.

As Webmaster I try to keep the website updated as I receive information. A special thank you to Jim Matysek for keeping our website registered and for helping me when other issues arise. This year USMS removed LMSC aliases from their website as well as removing most of our board members names from the [Florida LMSC page](#) on the [USMS website](#). Jim was able to create aliases for our board members, which are located on the [Contacts](#) page. Much appreciated, Jim! Also on that page you can find information about our [Clubs](#). Please let me know if there are any mistakes or updates.

On the [Board Information](#) page you will find meeting announcements, reports, archived minutes, Florida LMSC Bylaws, and other important administrative documents. Registration information is on our [Registration](#) page. There is a plethora of information for meet directors and swimmers on the [Meet Directors](#) page. The [Meets & Results](#) page has links to other websites with meet results, etc. This page shows the date ranges of the USMS swimming seasons for SCY, LCM and SCY and submission deadlines in order to be included in the USMS top ten. This page also has Florida Records and a link to the Florida LMSC Top Ten. Nomination forms and current and past awards are located on the [Awards](#) page. Please check out the [Education](#) page. There you will find certification courses and clinic events.

In the “Newsletter” section you will also find the “USMS In Memoriam” videos from 2020 – 2025. This year USMS discontinued the In Memoriam presentation at their annual meeting. There are some “Coaches Corner” submissions posted from previous years under [Articles](#), [Remembering Our Florida Members](#), as well as “News From our Florida Clubs” where clubs can have their website link added, or a one page website hosted by the Florida LMSC. If any club wants to take advantage of this, let me know and we can work together to create your page. So far, FACT is the only club who has a website hosted by the Florida LMSC.

Please let me know if you find any issues on our website that need to be corrected or added. Thank you,
